

Corinthian Vintage Auto Racing Annual Technical Safety Inspection

This form is for the use of professional race prep shops or trained safety inspectors. It is to assure the vehicle meets CVAR's minimum rules for safety prep. Cars that do not have a CVAR log book and/or it is the first time at a CVAR event, still must go through a CVAR Annual Inspection. The signor of the form is attesting that the vehicle has met these requirements and safe for the events. Please fill out information where indicated, initial or indicate N/A where applicable. Entrants only need to bring this form to tech with the vehicle Log Book and their driving gear to tech to have it recorded for that year. Please refer to CVAR current safety requirements when completing this form.

Car Owner/Entrant _____
